

ERWIN WILBERT MAPALIEY

SOFTWARE ENGINEER

ABOUT ME

I'm a software engineer since 2017 focusing on web development and just learning about mobile development. I have experience in developing web-based analytical dashboard & web apps using Laravel. Mostly work as backend developer but sometimes work as fullstack developer depends on team & project requirement.

WORK EXPERIENCE

Senior Software Engineer - PT Suitmedia Kreasi Indonesia Oct 2022 - Present

- Develop and maintain web-based monolith application developed using Laravel, implement frontend side using Vue, develop CMS, database design, setup project on staging & production server, and also create technical documentation.
- Work with junior developer, review code & merge on GitLab.
- Mentoring intern developer on project team.

Notable Project:

- Adhi Karya e-SCM Enhancement (2022 - 2024)
- MOST Forum - Mandiri Sekuritas (2022)

Fullstack Web Developer - PT Hasnur Informasi Teknologi Jan 2018 - Jun 2022

SAP ABAP Developer Nov 2017 - Jan 2018

- Build and maintain web-based project to support other entity in company's group. Develop both frontend and backend system, mostly use PHP MVC Framework such as Codeigniter or Laravel with SAPRFC integration for main data source.
- Support SAP Functional Team as ABAP Developer, develop and enhance some SAP Modules based on request.
- Responsible in several web based project using SAPRFC.
- Create Technical Documentation.

Notable Project:

- HG Mobile Attendance (2022)
- Employee Self Service (ESS) Web App Enhancement (2022)
- Vessel Tracker & Management Dashboard - PT Hasnur Internasional Shipping (2021)
- MSU Dashboard (Tyre Module) - PT Magma Sigma Utama (2020 - 2021)
- Agribusiness EIS (Executive Information System) - PT Hasnur Citra Terpadu & PT Barito Putera Plantation (2018 - 2020)
